## Performance

- 2018/2019 is the third year of the one per cent rent reduction applied to properties in England, subject to certain exceptions, as set out in the Welfare Reform and Work Act 2016. In order to mitigate the effects of the rent reduction policy in England and to continue to provide increased value for money to our customers, the emphasis continues to be on cost management. This will be achieved by maximising efficiencies through our Modern Workplace initiatives and reducing reliance on external contractors by driving up the utilisation of the in-house maintenance service.
- In response to the tragic events of the Grenfell Tower fire we have revisited all our fire risk assessments and brought forward a £4 million programme of fire prevention works to ensure that our homes continue to exceed the minimum statutory requirements.

## Well positioned to manage future challenges

- The Government has confirmed that increases to social housing rents will be limited to the Consumer Price Index plus 1% from 2020, an £18 million per annum positive impact on cash flow by 2025. This provides the Group with the stability and certainty to invest in new homes and existing homes and services for tenants.

# Revenue and EBITDA analysis

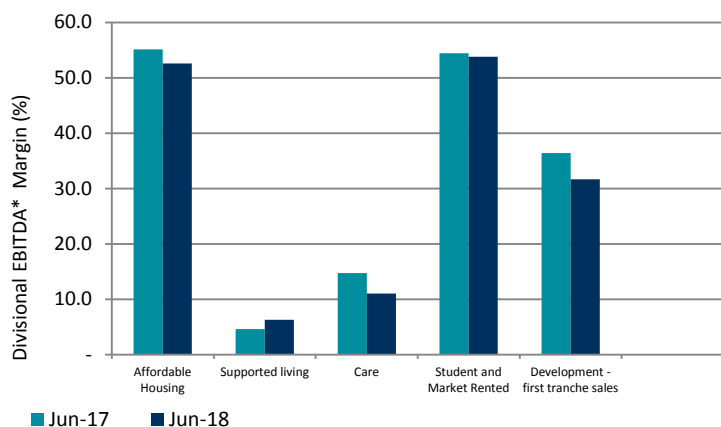

## Year on year trend analysis – EBITDA

## Year on year trend analysis - revenue

## Year on year trend analysis – EBITDA Margin

- The Group has benefited from additional revenue this year as a result of the Embrace Care portfolio, now referred to as Care (North) operations, which were acquired on 19 June 2017.
- Overall Group revenue has therefore increased year on year despite a reduction in rental income and property sales income compared to the same period last year.

# Supported Living: consistent high quality working practices

- This division covers our supported living, home care and Sanctuary365 offerings.
- The home care business continues to consolidate operations, concentrating on providing services into the Group's own establishments. Significant effort has been made to ensure a smooth handover to new service providers where continued arrangements have not been financially viable.
- Sanctuary Supported Living aims to expand the business by maximising new marketing opportunities through the development of innovative products and services, improve service delivery by the use of electronic care and support plans and seek to proactively bring all care and support contracts back in house where aligned to Group strategy, thereby maximising income to the Group.
- The use of assistive technology, telecare and telehealth continues to grow within the Group, maximising the profile of Sanctuary365 across Sanctuary Supported Living services where possible.
- Working practices continue to be reviewed to ensure best practice across all services, providing a consistent level of service and to realise economies of scale.

CQC compliance	78.0%	84.0%	(6.0%)

- Sanctuary Care (North) integrated into the main Sanctuary Care operation on 1 April 2018, ensuring a consistent delivery of high quality services to our customers. This includes the furtherance of internal quality assessments and procedures which can be evidenced by CQC and Care Inspectorate ratings.
- 2018/2019 is the second year of a three-year strategy designed to deliver improved ways of working and governance to ensure all homes maintain the delivery of high quality care that meets the CQC standards. Sanctuary Care will continue to build on its strong reputation in local areas and build brand awareness in the market place.
- Sanctuary Care will be introducing its industry leading care application (kradle) after a successful trial in three care homes. 'kradle' allows care staff to electronically plan, track and measure care delivered to our residents. Staff use mobile devices around the home to deliver care and record well-being, vital statistics and useful information about residents at the touch of a button. It is anticipated 'kradle' will contribute towards even higher care standards.

# Student and Market Rented: increased income per bed space

Period to 30 June 2018	Jun-18	Jun-17	Movement
Revenue (£'000)	14,776	14,230	546

Student occupancy (%)	90.5%	91.9%	(1.4%)
Student income per bedspace (£'000)	4,700	4,540	160

- The programme of fire prevention works within the Group has resulted in a reduction in EBITDA for the year-to-date. However, when excluding the FRA costs (as shown above) the EBITDA has remained in line with the comparative period. The student business is targeting improvements in revenue, operating profit and service delivery and so performance in these areas is expected to continue as the year progresses.
- The business will continue to seek ways to maximise operational efficiencies while improving the customer experience through technology, including the optimisation of the benefits from our ERP system, as well as the installation of the next generation Kinetic booking solution and events management software.
- Working with asset management, under-utilised assets will be reviewed and opportunities explored for income maximisation or alternative use, thereby maximising the potential revenue generation from each site. A standard operating model will be developed to ensure consistency and economy in the management of market rented and commercial tenancies.

- Sanctuary will continue to work with Homes England and the Scottish Government to deliver more new homes while looking for flexible ways to support them to meet the challenge of the housing shortage.
- The emphasis in the current year will be on continuing to identify land opportunities as well as delivering the current pipeline. In addition, we will need to ensure that our new homes meet the high expectations of our customers.
- A total of 25 new on-site sales centres will be launched during the year. The Group will continue to make sure the local communities benefit from our developments by ensuring contractors deliver community benefits as well as meeting our employment and skills requirements.

# Current initiatives are driving value

## Our mission and values

AMBITION

DIVERSITY

INTEGRITY

QUALITY

SUSTAINABILITY

- At the core of our business are Sanctuary's values. These set the way we conduct ourselves and how we do business.
- Our mission - To remain a market leader in the provision of high quality housing, nursing and residential care and community services.
- We believe no-one should be homeless. Everyone should have a decent home that they can afford and that meets their needs and circumstances.
- We believe care should be accessible to all who need it and should be delivered with dignity, respect and, above all, kindness.

## Modern workplace

- Sanctuary was the first housing association to implement an Enterprise Resource Planning (ERP) system group-wide, known as OneSanctuary.
- 5,000 of our staff use the ERP system on a daily basis, for finance, procurement, human resources, service charges, learning and development, housing, maintenance and assets.
- With the implementation complete, the focus going forward is on further maximising the outputs from the system, processes and people we have in place. Our Modern Workplace initiative will ensure the business continues to transform the way we operate, with a constant focus on efficiency and effectiveness in our delivery of services to customers.

## Development of new homes

- Aspire to build 30,000 new homes. A combination of homes for those in housing need, older people's accommodation, care homes and properties for part or outright sale.
- We continue to bid for grant funding from Homes England, the Scottish Government and local authorities.
- The three joint ventures formed with one of the UK's leading house building and construction groups in order to develop over 600 properties at several specific sites, including a significant element of affordable housing, are on-site and sales have commenced.
