

# Sanctuary Group Tax Strategy

## Tax Strategy statement

---

Sanctuary Housing Association is a not-for-profit charitable entity with no overseas operations and is the parent company of Sanctuary Group. Our mission is to remain a market leader in the provision of high quality housing, nursing and residential care, and community services.

Sanctuary Group employs over 13,000 people and manages more than 100,000 units of accommodation in England and Scotland. This includes general rented, retirement living, key worker and student accommodation, care homes and supported housing. We also provide a range of other services including maintenance and telecare.

Accordingly, the operations of some entities can and do involve the undertaking of commercial trading activities. The overarching objective of such entities is the philanthropic gifting of earnings to Sanctuary Housing Association or its charitable members for reinvestment in the sustainable development of homes and services to a diverse range of people in housing need.

Our activities generate a variety of tax liabilities. We pay Corporate Income Taxes, Stamp Duties and Employment Taxes. We collect and pay Employee Taxes and VAT.

Our aim is to comply with all aspects of UK tax legislation. We seek to do so by acting with integrity and harnessing robust governance controls that are embedded into the organisation.

### Tax planning

Our attitude towards tax planning is to consider efficient alternatives to minimise costs. External advice will be sought where material uncertainty exists in relation to the tax impact of new business transactions.

The pursuit of aggressive or artificial tax practices that may harm our reputation is not undertaken. Any tax efficient structures that are employed will stand up to third party independent review.

### Tax risk management

The tax team has clear support internally with a consistent tax reporting system. Training is provided to finance staff to assist with queries. External training is also provided to the tax team. All returns are submitted on time, with documented submission and review processes embedded within the team to reduce the risk of errors and to capture all areas in line with good practice. External advisors are called upon to assist with transactions. Her Majesty's Revenue and Customs (HMRC) also assists when required for additional support and advice.

### Transparency

Group dealings with HMRC and other Governing bodies are and will be open, transparent and collaborative. A Client Relation Manager is in place with HMRC which allows us to manage our exposure to risk.

### Governance

The Chief Financial Officer directly owns the tax approach that is approved by the Group Board. This approach is implemented through the consistent application and maintenance of policies and procedures.

This above mentioned approach is applicable across the entire Sanctuary Group. Our approach and strategy is reviewed annually.

Tax Strategy complies with the UK legislation of Finance Act 2016 Schedule 19.
